

# LOUISIANA NEEDS

## THE 2017 COASTAL MASTER PLAN

WITHOUT ACTION, LOUISIANA COULD LOSE  
**2,250 SQUARE MILES**  
OF LAND OVER THE NEXT 50 YEARS,

PUTTING OUR COMMUNITIES, ECONOMY, NATURAL RESOURCES AND WILDLIFE – OUR ENTIRE WAY OF LIFE – AT RISK.

Louisiana's 2017 Coastal Master Plan is the blueprint for the state's coastal restoration and protection efforts. If implemented, it will help Louisiana avoid this devastating land-loss scenario and reduce damages, which could **exceed \$150 billion over the next 50 years without the master plan.**

In addition, **nearly 60,000 jobs will be supported** by investments in coastal restoration and protection over the next 10 years.

The Louisiana Legislature is currently considering the 2017 Coastal Master Plan. **An overwhelming 88 percent of Louisiana voters statewide want their legislator to vote for the plan.**
