

May 21, 2025

The Honorable Jeff Landry

Governor of Louisiana

Office of the Governor

P.O. Box 94004

Baton Rouge, LA 70804-9004

Dear Governor Landry:

As business and civic leaders from across South Louisiana, we commend you for your leadership in making Louisiana a more competitive place to do business, and for the tremendous economic development wins your Administration has brought to our great state.

However, with hurricane season fast approaching and the 15th anniversary of the Deepwater Horizon Oil Spill upon us, we write to you today to express our concerns about coastal erosion and the long-term sustainability and insurability of south Louisiana. We have long supported Louisiana's science-backed Coastal Master Plan because it is the best option we have to restore our wetlands so that future generations can call south Louisiana home.

We want to explicitly express our support for the Mid-Barataria Sediment Diversion (MBSD), which is the linchpin of the Coastal Master Plan. We urge you and your Administration to resume construction of MBSD at the size and scope that it is permitted and funded as soon as possible. We are concerned that canceling or modifying this project will seriously hamper our ability to rebuild wetlands in the Barataria Basin, make it harder for communities to recover from hurricanes, and worsen Louisiana's insurance crisis.

Our coastal program works. Since 2005, it has fortified levees and coastal ecosystems benefiting over 67,000 acres, improved 383 miles of levee, and restored 71.6 miles of barrier islands. Furthermore, an overwhelming 82% of informed Louisiana voters support using sediment diversions to build new and sustain existing wetlands in Louisiana — a figure up from 80% in 2023. Additionally, voters in the Greater New Orleans region overwhelmingly support the completion of the Mid-Barataria Sediment Diversion.

The tangible gains achieved by Louisiana's coastal program hold together the fabric of our communities, give business leaders the confidence to invest in and plan for the future, protect increasingly vulnerable infrastructure, and strengthen our beloved Sportsman's

Paradise. As we face another hurricane season, we can't lose our momentum. We urge you to resume construction of MBSD as it is permitted and funded as soon as possible.

Sincerely,

**Dr. Carol Allen**
